Ford

There's No Power Like Pony Power

Open roads. Closed tracks. Drag strips and long straightaways. This legendary icon thrives on them all. A high-revving celebration of American muscle, the Ford Mustang is meant to be driven. Hard. Over the chicanes and blind corners of the world's premier road tracks to any twisty stretch of blacktop. Pony power brings us these heart-pounding choices. The Mustang EcoBoost model gets you started in all things Mustang. The mighty Mustang GT Premium pushes your adrenaline level to the redline. And with 760 thunderous horsepower, the new Shelby GT500 is the most powerful street legal Mustang. Ever. So buckle up for the ride of your life. You're about to break out from this stable at breathtaking speed.

STANDARD ON EVERY FORD MUSTANG

SYNC® 3 Enhanced Voice Recognition
Communications and Entertainment System
8-inch Capacitive center touchscreen
with swipe capability
Smart-Charging multimedia USB ports (x2)
Apple CarPlay® and Android Auto™ compatibility
AM/FM stereo

At Your Service

This available vibrant 8-inch touchscreen is the command center of available SYNC® 3 voice-activated technology,¹ which integrates your paired mobile phone with Ford Mustang. Make calls. Send and receive text messages. And so much more. Just swipe left or right, or use simple voice commands, to help ensure your life doesn't miss a beat.

This cabin rocks. Starting with an available thunderous B&O™ Sound System that sends 1,000 watts of digitally processed sound through 12 high-performance speakers, plus a trunk-mounted subwoofer. Steering column: tilts and telescopes to better fit your needs. Toggle switches provide open access to available Selectable Drive Modes. Steering wheel-mounted controls for the available digital instrument cluster. And so much more. Designed and engineered to heighten your connection to the road-Ford Mustang also optimizes your enjoyment of it.

Customize Your View

The 12-inch all-digital cluster lets you personalize your gauge layout. Through the steering wheel controls, you decide what's displayed: any combination of 1 to 3 virtual gauges (choose from 8), Exhaust mode, TrackApps,[®] a Performance Shift Indicator (3 types with configurable rpm), launch control and more. Enhance it further with MyColor.[®] Set your primary, secondary and ambient lighting colors. The cluster, like everything else Mustang, is fast. And oh so responsive.

Mustang Trackapps

LIGHT 'EM UP.
At the track. In the cluster. With standard electronic line-lock, you can “heat up” the Mustang rear tires. As they smoke outside, you'll see them smokin' here as well.

NO STOPWATCH NEEDED.
With the Lap Timer, record your time and average speed at 3 separate tracks. Store up to 100 sessions (a session is 25 laps) in Track Mode.

1,320' OF EXHILARATION.
Start your launch with the iconic “Christmas tree.” Acceleration Time. 3-2-1. Gone! Combined with Launch Control to help prevent wheelspin, you get a real-world racing experience.

1. Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Functionality varies by market. 2. Certain restrictions, 3rd-party terms and data rates may apply. See your Ford Dealer for details. Commands may vary by phone and AppLink software. 3. Requires phone with active data service and compatible software. SYNC does not control 3rd-party products while in use. 3rd parties are solely responsible for their respective functionality. 4. Availability varies by market.
